Chief, Communications Division

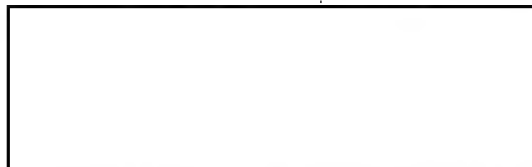

28 June 1951

Chief, Operations Branch

Monthly Report for Operations Branch, June 1951

CRYPTOGRAPHIC STAFF COMMUNICATIONS:

1. Staff cryptographic communications were activated to the following stations:

2. Staff cryptographic communications were approved for:

3. Code Clarks were assigned, as requested,

4. Arrangements were completed for the conversion to Codruss procedure on 1 July 1951.

5. Arrangements are pending for the activation of the circuit 2 July 1951.

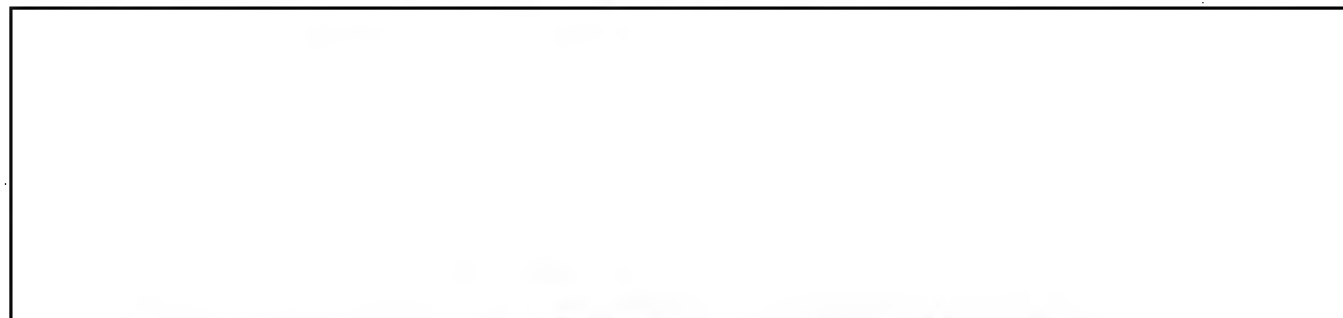

6. A category G4 Budget estimate was supplied to Administration. This estimate is for the fiscal year 1953.

7. An investigation was completed concerning transmission delays involving SEC messages to . The delay was caused by loss

CRYPTOGRAPHIC AND CLANDESTINE COMMUNICATIONS:

1. The overt signal plan was pouched to . An RT-1 transmitter, RM 129X receiver, and accessory equipment have been requisitioned for this station.

2. An emergency communications plan was prepared and pouched to the station. The overt signal plan was also pouched. The clandestine signal plan will follow when completed.

5. Signal plan, cryptographic material, crystals and instructions have been passed to [] to be used for emergency purposes. This signal plan is being used []

25X1A
25X1A
ILLEGIB

6. Night signal plans were dispatched to the []

25X1A

7. A transmission test schedule has been forwarded to [] and will be put into effect approximately 1 July 1951. [] is the project name.

25X1A

25X1A

8. [] - Policy determinations are being made regarding submission of additional types of signal plans by the [] respectively. It has been requested by the field that a meeting on this subject be arranged approximately 1 August 1951.

25X1A

25X1A

9. [] - Communications have been received from the field outlining priorities of placement of equipment and signal plans and the production of signal plans for this operation is being done in accordance herewith. Also under [] a paper is being prepared on the subject of activation of [] circuits which it is believed will serve to establish a procedure for this type of undertaking in connection with most activities.

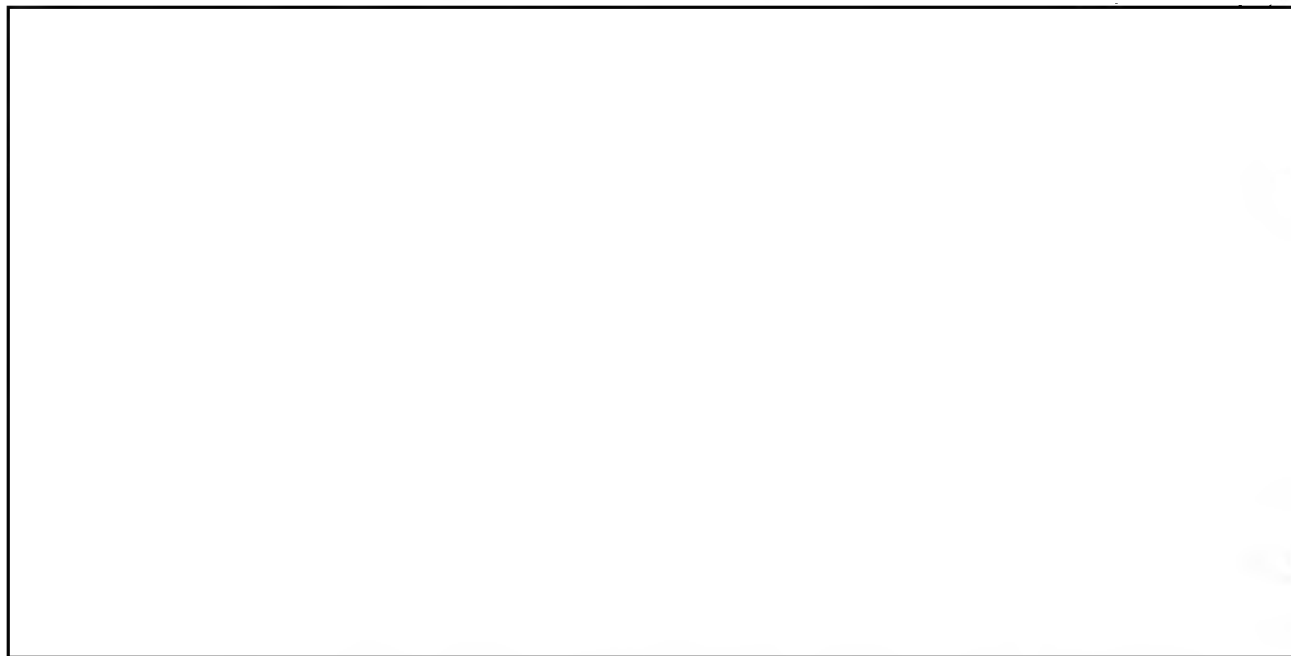

25X1A

25X1A

25X1A

25X1A

25X1A

10. Plans are going ahead for the establishment of an OPC operational base at []. Commo has been requested to arrange for staff training to [] starting 1 August and to be prepared to begin training of ten students at [] by 1 September 1951.

25X1A
25X1A
25X1A

11. Commo has started on the radio tower base []. A four position commo station is being installed.

25X1A

25X1A 20. The [] project has set up two sub-bases []
25X1A [] has been assigned to the project on 130 days
[] and will depart by 7 July. [] will finish training on 27
July and will depart shortly thereafter. 25X1A

25X1A 21. [] will depart for [] by 25X1A
15 July. 25X1A

25X1A 22. Personnel for the [] project are being selected. A forty-three
man T/O was submitted for approval as necessary to support the []
It will not be possible to fill this T/O until additional people are recruited
and trained or until Military personnel are available.

25X1A COMMUNICATIONS:

25X1A 1. [] returned to Washington from a [] inspection tour and 25X1A
25X1A relieved [] as [] Communications Area Officer. 25X1A

25X1A 2. [] has arrived in [] to assume the duties of comm- 25X1A
munications Training Officer for [] 25X1A

25X1A 1. The [] training area was established. This setup is similar 25X1A
25X1A to [] it is merely a large residence setup with appropriate cover
and is controlled by our comm instructors. This area will cover the training
of [] operations for both OGC and OMC. A separate residence
will be provided to allow separation of the OGC and OMC trainees.

25X1A 2. The Chief, [] made a trip to [] where he spent two weeks talking 25X1A
over the comm responsibilities for this area and getting many of their problems
worked out. Plans were laid and motivated toward construction of a joint comm
base radio station to take the place of [] and the [] radio base at 25X1A
such. This combined base will be called [] 25X1A

Far and Southeast Asia

25X1A 1. The base schedule begins for [] together with crystals and signal 25X1A
Plan instructions were forwarded to [] All signal planning will now be
done in the area by [] staff.

25X1A 1. The processing of seven additional comm technicians for the OMC 25X1A
[] activity is continuing. It is expected that two of the
seven will be ready for departure around the first week in July. The remainder
are scheduled to leave after the fifteenth of July.

Latin America

25X1A 1. A proposal has been received from [] to activate a radio station in 25X1A
[] for lateral service to the Latin American area.

2. Planning is continuing for the conversion of the Latin American
network to the status [] 25X1A

3. The acute shortage of personnel continues to be felt in this area.

DISCUSSION:

25X1A

[redacted] are continuing their research and investigation in consolidating information pertaining to various covert and overt projects. This information, prepared on specifically derived forms, is intended to reflect an up-to-date account as to the status of each project. These forms reflect information pertaining to Signal Plans, operations, cryptographic support, equipment, traffic routing, etc.

EXTENSION AND PROPAGATION SECTION:

Completed prediction curves for [redacted] both FOT's and WOT's 25X1A

Improvements continued for increasing the variability of propagation calculating equipment.

The following curves were completed:

25X1A

[redacted]

The preparation of curves for [redacted] are continuing 25X1A
